

U.S. ARMY CORPS OF ENGINEERS

Donna L. Street Chief, Engineering and Construction Division

Ms. Street is currently the Chief of the Engineering and Construction Division for the Europe District Wiesbaden, Germany. She assumed these duties in June 2012. In this position, she is responsible for the design, engineering and construction work for the timely execution of MILCON, O&M and Support for Others projects within the European (EUCOM) and African (AFRCOM) Commands. The overall district program ranges from \$500 to \$700 million annually. She also serves as the CP-18 Engineer and Scientists Career Program Manager.

Prior to arriving in Germany Ms. Street served as Chief, Engineering and Construction Division, Walla Walla District. She was responsible for the design, engineering, and construction activities in the District, with a design/engineering workload averaging \$20 million annually and construction volume of \$30 to \$50 million annually in civil works projects in six western states. The District is also the Civil Works Cost Estimating Center of Expertise for the Corps of Engineers.

Ms. Street began her career with Walla Walla District in 1981 after graduating from Walla Walla College with a Bachelor of Science degree in engineering. She is a registered Professional Engineer in the State of Oregon, a Project Management Professional and earned a Master of Science degree in engineering management from Washington State University. She is a member of the American Society of Civil Engineers and the Society of American Military Engineers.

As an Engineer-in-Training, Ms. Street performed quality assurance on Willow Creek Dam, one of the first roller-compacted concrete dams in the United States. Later, she worked in civil design, flood plain management, emergency management, and project operations. From June 1986-July 1993, Ms. Street worked with Portland District at Elk Creek and Bonneville Navigation Lock Resident Offices performing office/project engineering; served as Chief of the Office Engineering Section at the Bonneville Resident Office; and worked in Construction Division and Program Management Offices. In 1993, Ms. Street returned to Walla Walla District and the Hanford Project Office as a Project Manager (PM), served as CEFMS Deployment PM, assistant PM at Ice Harbor, and the Maintenance Engineering Section Chief in Operations Division. She was also Chief of Contract Administration and Quality Assurance Branches in Construction Division and Chief of Programs and Project Management Branch in Planning, Programs, and Project Management Division. She served as Deputy District Engineer from March-November 2009.

From June 2004-January 2006, Ms. Street served as Kirkuk Area Engineer in Iraq supporting Coalition Forces' military and reconstruction efforts through the Kirkuk and Sulaymaniyah Provinces in the GWOT/OCO. From July 2008-March 2009, Ms. Street served as the Bagram Area Engineer and from Sept 2010-2011 as the Mazar-e-Sharif Area Engineer in Afghanistan supporting the Coalition Forces, Afghan Security Forces and reconstruction efforts.
